

AUSTRALIAN TESTING SERVICES

Registered Training Organisation # 21642

ELEVATED WORK PLATFORM

An Elevated Work Platform with a nominal reach of 11 metres or more requires that the operator have Worksafe accreditation. Smaller EWP operation still requires the employer to provide adequate information, instruction & training to their employees. EWP operation is often the most effective method to safely work at heights. A National "High Risk" Licence for EWP allows for operation of machines of any configuration & size Australia wide.

<p>At the completion of this course applicants will be able to safely inspect & use an Elevated Work Platform. Most trades in most industries require their workers to gain access to jobs at heights. National Worksafe accreditation is issued on successful completion.</p>	<p>Delivery method: Training is conducted in the classroom & in the field.</p>
