## Professional Development

The **Australian Careers Service (ACS)** is a free membership service developed for career practitioners. It aims to support best practice and innovation in the delivery of career programs, and to promote career education as a professional and recognised field of endeavour.

We have registered with the Australian Careers Services as the “Limestone Coast Career Development Network” and should receive regular updates or alternatively you can register individually.

The ACS Seminars are FREE and provide career professionals with up-to-date industry information from an array of top recruiting organisations and further education providers. The day consists of;

- A fully catered for event with post-event drinks
- Trade display exhibits
- Presentations, workshops and networking sessions
- Great prize draws
- Direct information and contact details from industry representatives
- Professional development certificates

The 2010 events will be held in July and August around the Country.

Travel reimbursement is available for careers advisers travelling from regional areas.
